

# My days in Wolfsburg

# Motivation

**The main reason for being part of this erasmus was time, and location, and with that I mean this:**

- I love germanic countries
- I really hate summer time in spain
- Also I dont have much time in winter for working and studying

Having this in mind, why not take this chance ?

# Questions

Well, personally I didn't have had a lot of questions, my only question were motivated by my mother, who was worried about my accomodation, so, I took a photo for her.

(actually, it was a nice place, but was also funny see how will she react)

(I also took this one, as you can see, is a lovely place)

# About Austria..

My opinion with this one is simple, before going there I loved it, I knew how they were also how were things done, so I was not impressed, I still love their culture.

Also Austria have a very nice weather which lead to this kind of beauty.

# Stadtwerke

This enterprise called Wolfsberg Stadtwerke has less than 300 employees, but is the responsible for a lot of services in Wolfsberg including water supplies, gardening ....

~~This one was taken in a meeting with the CEO which was almost half an hour late.~~

# My job

My tasks were three, searching for a camera and making a webpage for the cameras (you can have a tease here <http://wolfsbergcameras.000webhostapp.com/> ) and trying to make my two co-workers who were also in a erasmus engage as many conversation with locals as possible.

*At least I can say I made, at least two of them successfully*

# What I liked

As you can imagine, I liked a lot of things there, since I arrived I have had a good feeling, and it was because people were very quiet, I loved that, you can practice almost every sport for free, in vienna some locals got stands filled with typical food also, their way to see the world is very unique.

~~Im sorry, but I really liked everything so, I will not make a slide just complaining about my lack of work there.~~

# Accomodation

**The only thing that really surprised me is this... Just with 160€ /month you can have a really nice accomodation with other students, breakfast and just in front of the football stadium!**

Even when they know they dont got the very best league, they fill up a stadium every saturday!

~~They also go there for chat, eat, drink....~~
